

**SAFE DRINKING WATER ACT
PUBLIC NOTIFICATION OF NON-COMPLIANCE**

LEAD & COPPER MONITORING VIOLATION

**TESI – COUNTRY PINES MH ESTATES WATER SYSTEM
Lafayette Parish, Louisiana**

**PWS ID No. 1055040
August 28, 2009**

The TESI water system listed above was found to be in non-compliance with the monitoring requirements of Part XII, of the Louisiana State Sanitary code (LAC 51:XII) for failure to monitor for Lead & Copper during the first 2009 routine monitoring period.

We are required to monitor your drinking water for lead & copper. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the monitoring period of January 1 thru June 30, 2009, the Country Pines MH Estates Water System did not monitor for lead & copper, therefore, we cannot be sure of the quality of your drinking water during this time.

This violation occurred because of the failure to collect the required number of samples for lead & copper from the water system's distribution system. Necessary action has been taken to prevent this violation from reoccurring and the required lead & copper samples are scheduled to be taken during September 1 through December 31, 2009.

There is nothing you need do at this time. You do not need to boil your water or take other corrective actions. However, if you have specific health concerns, consult your doctor.

Please share this information with all the other people who drink this water, especially those who may have not received this notice directly (for example, people in apartments, nursing homes, schools & businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

For additional information about your water system, please contact Ms. Wendy Cahanin, District Supervisor @ 1-888-664-6432.
